Subject: Notice to the Quail Brush Generation Project (11-AFC-03) parties about change in POS list updating procedure

To: Energy Commission Proceeding Parties, Document Filers, and Other Interested Persons
Re: Change in the Process for Obtaining the Current Proof of Service list

Our office maintains the Proof of Service lists for most formal proceedings conducted by the Energy Commission. I write to inform you that we are streamlining our process for publishing revisions to those lists. Henceforth, we will no longer send revised versions of the Proofs of Service to the parties in a proceeding. Rather, the current versions will be posted on the proceeding's web page, in both .pdf and .doc formats for you to download and use in filing and serving documents. Instead of calling our office for the .doc version, please download it from the web site. **You can determine whether you have the latest version by comparing its revision date to the revision date on the posted file.**

Thanks to the Energy Commission's Web Team for facilitating this process improvement.

If you have any questions, please call our office at (916) 654-3893.
